April

CLASSROOM NEWS

April will hopefully bring us spring weather. Please remind your student to bring a sweatshirt for the cooler times in the classroom and warmer days outside when they don't need their coat, but still need something on their arms.

We are continuing to watch our salmon eggs. We have a few that have hatched in to Alevin. More should start hatching toward the end of the month.

We are working on measurement in math, reading an analog clock, and continuing with our multiplication and division facts. We are researching arctic animals and will complete a presentation with classmates about our animals.

REMINDERS

Yesterday I sent home April's math and reading logs. Please encourage your student to complete them both. The reading logs do need to be returned on **April 17** for the entries into the Bikes for Books drawing.
