## MONTH

### CLASSROOM NEWS

Our big news is that our class is going to be raising salmon eggs with Mrs. Noyes' class!! We are so excited for this project that will have us learning about the life cycle of salmon, reading thermometers, and caring for salmon eggs. We have already learned about the life cycle of salmon. Our tank will be set up next week. Then the last week of February we will have our delivery of about 200 salmon eggs. Please be sure to check with your student about how things are going!

Our other big learning this month will be about Balto, Togo, The Great Serum Run, and the Iditarod Dog Sled Race in Alaska. This unit covers learning about geography, animals, math, and reading. The first week of March we will start tracking a musher on the Iditarod trail as they race 1,000 miles to Nome.

### REMINDERS

Read- 20 minutes for 20 days throughout the month  
Math- practice math facts 10 minutes a day

Allergies- Strawberries, nuts, and kiwi

### EVENTS

Feb. 6th and 8th-  
Through Year Testing
