March

## CLASSROOM NEWS

March is Iditarod month! During the first two weeks of March we will focus our learning on the Iditarod race in Alaska. Your student will choose a musher to follow along the 1,000 mile trail.

We are also working on an essay for the Future of Maine scholarship. This is an assignment that students will be completing in class, but they have the opportunity to submit their essay to the selection committee to win a \$100 scholarship.

Finally, we received our fish eggs today! It was a great morning after seeing the fish hatchery on Wednesday. We counted and observed the 201 eggs that we will raise until spring when we release them in the Sandy River.

We are kicking off our annual Bikes for Books program this month. You will see the reading log looks different this month. Please be sure to read the letter attached to the reading log. I have sent enough reading logs for the month of March. I will send April's the first week of April.
